J. B. KINDERSLEY,

Agreement.

Memorandum of agreement made this 10th day of September One thousand nine hundred and thirty-six between the Industrial Home and School for Blind Children registered under Act XXI of 1860 and having its registered office at Behala, district 24-Parganas (hereinafter called the Company), of the one part and the Secretary of State for India in Council (hereinafter called the Secretary of State) of the other part.

Whereas for the purposes of the extension of playground and staff-quarters of the said Industrial Home and School for Blind Children, the Company has applied to the Government of Bengal for the acquisition, under the provisions of the Land Acquisition Act, I of 1894, of the piece or parcel of additional land containing 1 bigha 17 bittas and 5 chittacks equivalent to 0.6167 of an acre of land or thereabout, situate in the village of Mandalpara, jurisdiction list No. 6 of thana Behala, pargana Magura, district 24-Par-

ganas, in Bengal, and more particularly described in the schedule hereto and delineated in the plan* hereunto annexed.

And whereas the said Government of Bengal, being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Company the piece or parcel of additional land hereinbefore described.

And whereas the said Government of Bengal has required the Company under the provisions of section 41 of the abovementioned Act to enter into the agreement with the Secretary of State hereinafter contained.

Now this indenture witnesseth that it is hereby agreed and declared as follows:—

1. On demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, I of 1894, or by the Court to which a reference under Part III of the said Act may be made, or by the Court or Courts, to which an appeal from the award of the said Court may be preferred and all costs, charges and expenses of the proceedings in the aforesaid Courts or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

3. On payment by the Company of all demands under the foregoing first clause or in the discretion of the said Government of Bengal (on deposit by the Company of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the above-mentioned Act, the Secretary of State shall make over possession of the said land to the Company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the Company.

7. On taking such possession the said Government may sell or otherwise deal with the said land as it may think proper.

(i) Should the said Government sell the land with all the buildings the said Government, after deducting the expenses incurred in connection with the said taking of possession and with such sale, shall pay the proceeds to the Company.

the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received from the Company on account of trees and buildings which are not in existence at the time of resumption) but will not repay any sum paid and received on account of costs, charges and expenses.

(iii) Should the said Government decide to sell the buildings only, upon such sale, the Secretary of State, after deducting the expenses of taking possession and selling, pay the balance of the proceeds of the sale to the Company together with the sum received from the Company in respect of the compensation for the land (less the statutory allowance of 15 per cent. and less any amount received from the Company on account of trees and buildings which are not in existence at the time of resumption) but will not repay any sum paid and received on account of costs, charges and expenses.

16. The Federation and every Province shall—

- (c) disease definitely attributable to, or aggravated by service in a civil capacity with a military, Naval or Air force, or with a civil or military police force, if the Government certifies that such force was engaged in operations analogous to military operations, if the Government servant dies while in service or is invalided from civil service as a result of such disease.

(3) *Injury* means bodily injury resulting from *violence*, *accident* or *disease* assessed by a medical board as being not less than very severe, or severe and likely to be permanent.

Note.—Examples of *injuries* of certain categories to which these rules relate are given in Schedule III.

(7) *Special risk* means—

- (1) a risk of suffering *injury* by *violence*,
- (2) a risk of *injury* by *accident* to which a Government servant is exposed in the course of, and as a consequence of, the performance of any particular duty which has the effect of materially increasing his liability to such injury beyond the normal risks of his office.

If the *Government* is in doubt as to the interpretation of any of these rules, or as to whether a case comes within the purview of these rules, or as to which rule is applicable in a particular case, or in the event of a disagreement on any of these points between the *Government* and the Auditor General, the matter shall be referred to the Secretary of State in Council whose decision shall be final.

(2) Wherever in these Rules it is provided that an authority may at its discretion make an award or fix the amount of an award, such discretion shall, subject to any other relevant provisions in these rules, be exercised with reference to the character and service of the Government servant, of the nature of the risk and his conduct in connection therewith and, in the case of an *injury* award, the severity of the *injury* and its probable effect on his future life and career.

10. If in any case the *Government* is satisfied that it is impracticable to obtain the report of a medical board as to the severity of an *injury*, it may at its discretion accept in lieu thereof the report of any medical practitioner or other reliable evidence as to the severity of such *injury*.

SECTION II.—INJURY AWARDS.

General Rules.

11. For the purpose of the rules in this section an *injury* due to *disease* shall be deemed to have been sustained on the date on which the medical board reports or such earlier date as may be fixed by the *Government*, due regard being had to such opinion as the medical board may express as to the date from which the Government servant was incapacitated.

12. Any award in respect of an *injury* due to *violence* or *accident* to which a title is otherwise conferred by the rules in this section may with the sanction of the Secretary of State in Council be withheld if the Government servant first applies for an award more than 5 years after the *injury* was sustained.

13. Notwithstanding anything contained in rules 18, 19 and 20, if, as the result of delay on the part of a Government servant in submitting his application for an *injury* pension, the first medical report under these rules on an *injury*, other than an *injury* due to *disease*, is completed after the lapse of a year from the date on which the *injury* was sustained, any pension awarded shall have effect from such date, not being later than the date of the medical board's report, as the Secretary of State in Council may fix.

14. (1) An *injury* pension or gratuity shall be drawn by a Government servant whether he continues in Government service or not.

(2) An *injury* pension shall continue to be drawn by a retired Government servant during any period of re-employment, and shall not be taken into account when the pay of the Government servant during re-employment is fixed.

- (1) when a Government servant is invalided out of the service on account of the *injury* in respect of which the temporary pension was awarded, or
- (2) when the temporary pension has been drawn for not less than five years, or
- (3) at any time, if the Standing Medical Board, if any, at the headquarters of the *Government*, the India Office Medical Board, or such other medical board as may be approved in this behalf by the *Government* in any particular case, states that it sees no reason to believe that there will ever be a perceptible decrease in the degree of disablement.

16. If a Government servant is permanently incapacitated for Government service by an *injury* in respect of which an *injury* pension or gratuity is granted under these rules, he shall be granted on retirement in addition to such pension or gratuity any other pension or gratuity for which he is eligible under other rules for the time being in force, provided that if his total qualifying service makes him eligible for an invalid gratuity and not for an invalid pension, he may at his option exchange his invalid gratuity for a pension calculated as follows:—

- (1) if he is a member of the Indian Civil Service, at the rate of £30 a year for each completed year of active service, including any period of service rendered with the consent of Government in circumstances justifying his presence with a military force in either a civil or military capacity.

17. An application for the commutation of a permanent injury pension awarded under these rules shall be dealt with in accordance with the provisions of the Civil Pensions (Commutation) Rules.

- (3) if the injury has resulted in the permanent loss of, or of the use of, an eye and a limb or of more than one eye or limb, an additional gratuity or pension, at the discretion of the Government, of such amount, not exceeding the maximum prescribed for the loss of one eye or one limb, as the Government may fix;

- (4) if the injury is certified by a medical board not to be equivalent to the loss of a limb, but to be very severe:—

- (a) a gratuity of the applicable amount specified in Schedule I if the medical board certifies that the Government servant is likely to be unfit for service for a year, or a proportionate amount subject to a minimum of one-quarter of the amount so specified if he is certified to be likely to be unfit for less than a year, and

II. If a Government servant sustains an injury to which sub-rule I applies as the result of violence inflicted by rebels or rioters, or in

36. In respect of matters of procedure, all awards, under the Superior Civil Services (Extraordinary Pension) Rules are subject to any procedure rules relating to ordinary pensions for the time being in force, to the extent that such procedure rules are applicable and are not inconsistent with these Regulations.

37. A report, with copies of relevant medical documents, should be submitted to the Secretary of State in respect of every award made under the Superior Civil Services (Extraordinary Pension) Rules.

38. (1) A Government servant who considers that he has suffered injury in circumstances justifying an award under the Superior Civil Services (Extraordinary Pension) Rules should submit an application forthwith for examination by a medical board, which application should be forwarded through the usual channel to the Government.

(2) Even if no application for examination by a medical board is received, the Government, on receiving the report of the injury of an officer should consider whether there is *prima facie*, a case for an award to such officer and, if it concludes that such a case exists, it should, subject to the provisions of rule 10 of the Superior Civil Services (Extraordinary Pension) Rules, direct that the report of a medical board as to the severity of the injury, in the form prescribed in Rule 7 of these regulations shall be obtained.

(3) If the report shows that the injury is not less than very severe, or severe and likely to be permanent, the Government, before making an award, should direct that a formal enquiry into the circumstances in which the injury was sustained shall be held immediately.

(4) Notwithstanding anything contained in sub-rules (1), (2) and (3) of this rule, if an authority subordinate to the Government is of the opinion that in any particular case undue delay will be caused if the directions of the Government are obtained, such subordinate authority may itself obtain a report as to the severity of the injury and hold a formal enquiry into the circumstances in which injury was sustained. The case should then be reported in full detail to the Government who, at their discretion, may accept the information so supplied as the basis on which the making of an award shall be considered.

39. (1) A Government on receiving the report of the death of a Government servant should consider whether there is, *prima facie*, a case for an award under the Superior Civil Services (Extraordinary Pension) Rules to the family of the deceased Government servant,

and if it concludes that such a case exist, the Government—

(i) (a) should obtain a medical report as to his death, or

(b) may accept reliable evidence as to the actual occurrence of death if the Government servant lost his life in circumstances such that a medical report cannot be secured, and

(ii) should direct—

(a) that a formal enquiry into the circumstances in which death occurred shall be held immediately, and

(b) that evidence as to the relationship to the deceased Government servant of the person or persons to whom it is proposed to make an award shall be taken.

(2) Notwithstanding anything contained in sub-rule (1), if an authority subordinate to the Government is of the opinion that in any particular case undue delay will be caused if the directions of the Government are obtained, such subordinate authority may itself obtain a medical report or reliable evidence of death as the case may be, hold a formal enquiry, and take evidence of relationship. The case shall then be reported in full detail to the Government who, at their discretion, may accept the information so supplied as the basis on which the making of an award shall be considered.

40. When a Government has decided that an award under the Superior Civil Services (Extraordinary Pension) Rules must, or may, be made, and under which rule it will fall, the papers, with a statement of the case and of the amount or amounts, which it is proposed to award, in such form as may be prescribed by the Auditor-General, should be forwarded to the audit authority for a report as to whether the award is admissible under the Rules and as to the correctness of the amount, (or amounts, payable provided that if in any case all the information necessary for the completion of that form cannot, in the opinion of the Government be obtained without undue delay being caused, the audit authority should furnish a report based on such information as is available.

41. A child's pension shall be paid—

(1) if the child is the child of the deceased Government servant, to the widow if alive, unless another person has been appointed legal guardian in which case, and also in the event of the widow's death, it shall be paid to the legal guardian:

(2) if the child is the brother or sister of the deceased Government servant, to the legal guardian.

42. The form below should be used by Medical Boards when reporting on injuries:—

PROCEEDINGS OF MEDICAL BOARD.

CONFIDENTIAL.

Proceedings of a Medical Board assembled by order of _____ for the purpose of examining and reporting on the present state of the injury sustained by _____ at _____ (place of injury, etc.) on the _____ (date of injury, etc.)

(a) State briefly the circumstances under which the injury was sustained disease contracted.

(b) What is the Government servant's present condition?

(c) Is the Government servant's present condition wholly due to the injury disease?

If not, state to what other causes it is attributable.

(d) In the case of disease from which date does it appear that the Government servant has been incapacitated?

The opinion of the Board upon the questions below is as follows:—

	As to first injury.	As to second injury (if any).	As to third injury (if any).
1. Has the Government servant lost an eye or a limb ?	..	..	..
2. If the answer to (1) is in the negative, is the injury equivalent to the loss of a limb ?	..	..	..
3. If the answers to (1) and (2) are in the negative, is the injury very severe ?	..	..	..
4. If the answer to (3) is "Yes", for what total period from the date of injury has the Government servant been or is he likely to be unfit for duty ?	..	..	..
5. If the answers to (1), (2) and (3) are in the negative, is the injury severe ?	..	..	..
6. If the answer to (5) is "Yes"—			
(a) is the injury likely to be permanent ?	..	..	..
(b) and, if so, for what total period from the date of the injury has the Government servant been or is he likely to be unfit for duty ?	..	..	..
7. *If the answer to (2) was "Yes" in the first instance—			
(a) are the effects of the injury still equivalent to the loss of a limb, and if not, ...	..	..	..
(b) are they very severe ?	..	..	..
8. *If the answer to (3) was "Yes" in the first instance, are the effects of the injury still very severe ?	..	..	..
9. If the answers to the questions above are in the negative, the injury should be classified here as "severe" but not likely to be "permanent", or "slight and permanent", or in similar terms	..	..	..

*For use in the case of subsequent medical boards in cases of renewal of award.

Instructions to be observed by the Medical Board preparing the Report.

1. The medical board before recording their opinion should invariably consult the proceedings of previous medical boards, if any, as also all previous medical documents connected with the Government servant brought before them for examination.

2. If the injuries be more than one they should be numbered and described separately; and should it be considered that, for instance though only "severe" or "slight" in themselves, they represent together the equivalent of a single "very severe" injury such an

opinion may be expressed in the columns provided.

3. In answering the questions in the prescribed form the Medical Board will confine itself exclusively to the medical aspect of the case and will carefully discriminate between the Government servant's unsupported statements and the medical and documentary evidence available.

4. The Board will not express any opinion, either to the Government servant examined, or in their report, as to whether he is entitled to compensation, or as to the amount of it, nor will it inform the Government servant how the injury has been classified.

11. The drainage system of premises connected with municipal underground sewerage system shall, so far as is practicable, provide for the diversion of all rain-water and surface-water from the underground sewerage system to the municipal surface-water drains. With this object, the owner of the premises shall construct such intercepting gully-pits, overflows and separate surface-water drains, as he may be called upon by the Commissioners to make as a condition precedent to the grant of permission to connect the privies or urinals thereon with municipal underground sewerage system.

12. Any inlet to any drain connected with the municipal underground sewerage system must be at least one foot above the highest known flood level, at such inlet.

13. No person shall discharge into any drain or overflow channel constructed for the purpose of discharging surface-water only any offensive matter, sewerage or rubbish so as to cause a nuisance or danger to health.

Pipe drains from premises.

14. All stoneware pipes shall be of a quality equal to the British Standard Specification, and shall be properly laid in straight lines vertically and horizontally and jointed with tarred gasket and cement in conformity with the specification laid down by the Commissioners under by-law 10. Every change in direction shall be formed by properly curved pipes or channels. Such changes of direction shall, unless otherwise specially permitted by the Commissioners, be made in inspection pits.

Drains of six inches diameter	...	1 in 80
Drains of nine inches diameter	...	1 in 150

17. All pipe drains shall be of adequate size and in no case shall any pipe drain have a diameter of less than four inches nor more than such a size as may be specified by the Commissioners.

The water test shall be made to a pressure of four feet above the highest point of the drain. No pipe drain shall be used until the Commissioners or any person authorised by them in this behalf shall have certified in writing that it has passed this test.

21. Every pipe drain shall be ventilated by carrying up a vertical pipe or shaft from the upper end of the pipe drain, and such pipe or shaft to be not less than four inches in diameter and shall be fixed in such a manner as effectually to prevent any escape of foul air from such pipe into any premises in the vicinity thereof, and in no case to a height of less than ten feet.

23. All gulleys, traps, gratings, covers or other appliances shall be of patterns, sizes and qualities in accordance with patterns approved by the Commissioners and kept in the municipal office.

Adequate means of access shall be provided at each end of such portion of the drain as is beneath the building.

25. Any pipe drain passing under a wall shall be protected at the part through the wall by an arch, reinforced concrete slab, or iron support so as, in the opinion of the Commissioners or any person authorised by them in this behalf, to be of sufficient strength to prevent any disturbance of the pipe drain caused by pressure or settlement of the wall.

26. Whenever specially required by the Commissioners, a suitable trap shall be placed in a drain at a point as near as may be practicable to the junction of the drain with the municipal underground sewerage system.

The gallery may be in one line, or in parallel lines the distance between which is not less than six feet. When laid in heavy subsoil, the length of gallery shall be calculated at ten feet per user, and it shall be laid in two or three separate lengths fed from a junction manhole so arranged that one or more lengths can be cut off for rest.

Soak pits and disposal galleries shall be constructed in accordance with the type plans to be kept at the municipal office.

Calcutta, the 2nd February 1937.

RESOLUTION—No. 315MEDL.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

In 1921 a Committee was appointed by Government to consider and report what practical steps could be taken for the restoration and development of the Ayurvedic system of treatment, with special reference to the question of teaching of that system under proper supervision and control. The Committee submitted its report in 1925, recommending *inter alia* the establishment of—

- (1) A Central Ayurvedic College and Hospital;
- (2) A General Ayurvedic Council; and
- (3) A State Faculty of Ayurvedic Medicine.

2. Government found it impossible on financial grounds to undertake a scheme for the establishment of an Ayurvedic College and Hospital as recommended in the report but considered it desirable to establish a General Council and a State Faculty of Ayurvedic Medicine with the object of stimulating a systematic study of the Ayurvedic system of medicine and of differentiating trained Ayurvedic practitioners from untrained persons.

3. A detailed scheme was prepared with the assistance of Mahamahopadhyaya Kaviraj Gananath Sen, Sir Jadu Nath Sarkar, Kt., and Lt.-Col. R. N. Chopra, I.M.S. It was decided that, for the sake of simplicity, the two proposed bodies should be merged into one, the State Faculty of Ayurvedic Medicine being regarded as a Committee of the proposed Council. In December 1931, the scheme was placed before a representative Conference of Kavirajes and with certain modifications to which Government agreed, the scheme was unanimously accepted by the Conference.

4. Owing to the unsatisfactory condition of provincial finances, Government are unable to accept any liability for the expenditure involved in the scheme as finally settled. They have, accordingly, come to the conclusion that the only way in which the scheme can be introduced is by reducing the expenditure involved to a minimum so as to render the scheme independent of financial assistance from Government.

5. Government have already received donations amounting to Rs. 7,500 for the constitution of the proposed Council. Further donations are expected to be received after the scheme is put into operation. The total receipts from this source and from the fees for registration anticipated during the first five years, during which period all existing and duly qualified Kavirajes will be allowed to have themselves registered, are expected to meet the expenses of the Council during this period, after which it will, it is hoped, be self-supporting.

6. In the circumstances stated above, the Government of Bengal (Ministry of Local Self-Government) are pleased to promulgate the enclosed statutes for the constitution of a General Council and State Faculty of Ayurvedic Medicine, Bengal, on the clear understanding that no financial assistance will be expected from Government for the maintenance of the Council and Faculty.

7. The main functions of the Council will be—

- (1) to regulate the standard of instruction in Ayurvedic Medicine,
- (2) to hold examinations of candidates trained in recognized Ayurvedic institutions,
- (3) to grant certificates or diplomas to successful candidates, and
- (4) to maintain a register of qualified Ayurvedic practitioners.

8. Government take this opportunity of expressing their appreciation of the assistance rendered by the promoters of the scheme.

Ordered that a copy of this resolution be published in the *Calcutta Gazette*.

By order of the Govt. of Bengal

(Ministry of Local Self-Govt.),

G. S. DUFT,

Secy. to the Govt. of Bengal.

No. 2254E.A.—3rd February 1937.—In exercise of the powers conferred by clauses (m) and (p) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the Governor in Council is pleased to make the following rules in supersession of the rules published with notification No. 439L.S.-G., dated the 11th February 1918, as subsequently amended:—

Rules for the preparation and execution of projects for water-supply, sewerage or drainage by the district board of Darjeeling.

1. *Definition.*—In these rules —

- (a) "District Engineer" means the Engineer appointed by the district board.
- (b) "Chief Engineer" means the Chief Engineer, Public Health Department.
- (c) "Sanitary Board" means the persons for the time being appointed, either by name or by official designation, by the Local Government by notification in the *Calcutta Gazette* to constitute a Sanitary Board.

2. *Preparation of sketch of project.*—(1) Whenever the district board desires to undertake a project for water-supply or sewerage, or a comprehensive scheme of surface drainage, or the improvement or extension of existing works of this description, it shall first cause to be drawn up a sketch of the project roughly showing its scope and estimated cost, if such project—

- (a) involves an estimated cost exceeding Rs. 5,000; or
- (b) is part of larger project the estimated cost of which exceeds Rs. 10,000; or
- (c) is such that financial assistance of the Local Government is desired.

(2) Such sketch may be drawn up —

- (a) by the Chief Engineer, at the request of the district board; or
- (b) by any private firm approved by the Chief Engineer; or
- (c) by the District Engineer; or
- (d) by any other officer in the employ of the district board or by an officer specially appointed by the district board for the purpose, subject in either case to the selection of such officer being approved by the Chief Engineer.

(3) In cases (b) to (d) referred to in sub-rule (2), the sketch of the project, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(4) The Chief Engineer shall, in all cases, act as adviser of the district board.

3. *Submission of sketch, statement and application.*—(1) When the estimated cost of any scheme, or of any larger scheme of which it forms a part, exceeds Rs. 10,000, or when the financial assistance of the Local Government is desired, the district board shall submit the sketch of the project prepared under rule 2 to the Sanitary Board through the Commissioner of the Division, together with a statement wherein shall be shown the amount of the funds available to meet the capital and recurring cost of the project from current revenue or by way of loan or from any other source.

(2) The Sanitary Board, after considering the project, shall forward it to the Revenue Department of Government for decision as to administrative approval with such recommendations as they may think fit, and if the project relates to local areas under the control of two or more local bodies, with proposals for the distribution of the cost.

(3) When the estimated cost of any scheme, or of any larger scheme of which it forms a part, exceeds Rs. 5,000 but does not exceed Rs. 10,000, and when the financial assistance of Local Government to the scheme is not required, it shall not be necessary for the district board to obtain the administrative approval of the Local Government to such scheme; but the Chief Engineer shall be consulted and the scheme with a copy of the Chief Engineer's opinion on it shall be submitted to the Commissioner for information.

4. *Conditions precedent to obtaining administrative approval of the Local Government to a project.*—In order to obtain the administrative approval of the Local Government to any such project, the district board shall satisfy the Local Government—

- (1) that the cost of maintenance of the projected work can be met by the district board from its own revenue;
- (2) that any loan required to meet the cost of the work can be repaid, together with the interest thereon, within the period that may be prescribed by the Local Government; and
- (3) that the work can be done effectually in the manner and for the cost proposed.

5. *Procedure after grant of administrative approval: preparation of detailed plans and estimates.* (1) When the administrative approval of the Local Government has been obtained to the project (but in no case before such approval, except with the previous sanction of the Local Government), the district board may arrange for the preparation of detailed plans and estimates, and for this purpose may—

- (a) apply for the services of the Chief Engineer, or
- (b) with the previous sanction of the Chief Engineer—
 - (i) entrust the work to a private firm; or
 - (ii) entrust the work to the District Engineer; or
 - (iii) cause the plans and estimates to be prepared by any other officer in the employ of the district board, or by an officer specially appointed for the purpose, subject in either case to the selection of such officer being approved of by the Chief Engineer, who shall first satisfy himself that the officer is fully qualified for the work in question.

(2) In case (a) referred to in sub-rule (1) application shall not be made for the preparation of plans and estimates for alternative schemes, unless the district board at the same time undertakes to pay for each such scheme the fees laid down in rule 30.

(3) In case (b) referred to in sub-rule (1), the plans and estimates, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(4) When land has to be acquired, the officer preparing the scheme shall send necessary particulars of such land to the Collector of the district and shall obtain from him an estimate of the cost of its acquisition. This estimate shall be submitted with the main scheme as a separate estimate.

6. *Submission of detailed plans and estimates for approval.*—(1) The detailed plans and estimates shall, on completion, be forwarded by the district board in duplicate to the Sanitary Board through the Commissioner of the Division or for information to the Commissioner of the Division as the case may be, together with, in the former case, a report on the state of public feeling in regard to the scheme and, if a loan is required, with an application in the prescribed form, and, in the latter case, a copy of the Chief Engineer's opinion on the scheme as finally drawn up.

(2) If the scheme is a drainage scheme the estimates shall be submitted in forms to be obtained from the office of the Chief Engineer.

(3) When the scheme has not been prepared in the office of the Chief Engineer, it shall be accompanied by full details of the calculations of the size and strength of the various works and complete information as to the prices on which the estimates have been based.

(4) The Sanitary Board shall submit the scheme as finally drawn up to the Revenue Department of Government for approval, with an expression of their opinion (a) on its merits and (b), if a loan is required, on the terms of such loan.

7. *Submission of proposals for rules regulating house-connections.*—If the scheme includes projects with the intention of allowing house-connections, the district board shall, within three months of submitting the detailed plans and estimates under rule 6, submit proposals for rules under section 138 of the Act regulating house-connections.

8. *Final sanction of schemes.*—The Local Government may either sanction or reject the scheme as submitted by the Sanitary Board or may refer it, with such proposals for amendment as it may think fit, to the Sanitary Board.

9. *Commencement of work.*—No work shall be commenced on the project, nor shall any agreement be entered into in respect thereof, until the detailed plans and estimates have received the final sanction of the Local Government under rule 8.

10. *Sanction to heavy excesses over detailed estimates.*—If at any time during the progress of the work the district board has reason to anticipate that the sanctioned detailed estimate will be exceeded by more than 10 per cent., or if it shall at any time appear to the district board that the sanctioned detailed scheme will require material alteration, the district board shall forthwith submit to the Local Government for sanction a revised scheme with revised estimates and plans.

The revised estimates and plans shall be prepared—

- (a) in the case of schemes prepared and carried out by a firm of engineers of established reputation, or by an officer specially appointed for the purpose under rule 5 (1) (b) (i) or 5 (1) (b) (iii) and rule 12 (2) (a), by the firm of engineers or the engineer so appointed, and shall be scrutinized by the Chief Engineer.
- (b) in the case of schemes prepared and carried out by the District Engineer under rules 5 (1) (b) (ii) and 12 (2) (b), by that officer and shall be scrutinized by the Chief Engineer.
- (c) in all other cases, by the Chief Engineer.

11. *Taking over of complete supervision and control by Chief Engineer.*—(1) The Chief Engineer shall have complete supervision and control of the carrying out of all schemes of water-supply, sewerage and drainage towards which the Local Government make a grant amounting to Rs. 50,000 or more, or to half the total cost of the scheme, or more. The district board shall undertake to pay the fees specified in rule 32 before work on the scheme is begun.

(2) In other cases the district board may request the Chief Engineer to take over supervision and control of the work, and on the district board undertaking to pay the fees specified in rule 32, the Chief Engineer shall, if he considers that he can do so without detriment to the public service, take over such supervision and control.

(3) Works, of which the complete supervision and control are taken over by the Chief Engineer under sub-rule (1) or sub-rule (2), shall be considered as contribution works and shall be carried out by the Engineering Branch of the Public Health Department under the rules regarding such works in paragraphs 210 to 214 of the Bengal Public Works Department Code (1st edition), except that the provision made in the Code for establishment, etc., will be covered by the fees specified in rule 32 hereof, or shall be met by the district board by payment of such fees as the Local Government may from time to time prescribe.

(4) In addition to the above fees the district board shall bear all law charges on behalf of the Local Government in any suits brought by contractors or others in connection with the execution of any project under this rule:

Provided that no charge shall be payable by the district board under sub-rule (4), if, in the opinion of Local Government, the suit is due to the malfeasance or negligence of the Chief Engineer or an officer subordinate to him.

(5) The district board shall be given an opportunity of seeing the terms of any contract for the execution of such work before it is executed. The Chief Engineer shall consider any remarks made by the district board as to the terms of the contract and if he is unable to accept the remarks shall submit the matter to the Local Government for decision.

12. *Conditions as to detailed engineering supervision.*—(1) Where the projected work is estimated to cost more than Rs. 10,000, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Local Government under rule 8,

(2) Save as otherwise expressly directed by the Local Government—

- (a) the work shall be carried out under the supervision of an engineer, either permanently employed by the district board or specially employed for the purpose, assisted by an adequate establishment of properly qualified overseers, the name and qualifications of the engineer having been previously submitted to the Chief Engineer, and approved by him; or
- (b) with the previous approval of the Chief Engineer, the work shall be carried out under the supervision of the District Engineer and his staff; or
- (c) the work shall be carried out under the complete supervision and control of the Chief Engineer in the manner provided in rule 11.

(3) In cases (a) and (b) referred to in sub-rule (2), the work while in progress shall be subject to inspection and control by the Chief Engineer.

13. *Report by district board to the Chief Engineer in case of small work.*—Where the work is estimated to cost not more than Rs. 10,000 and where a grant or loan has been taken from the Local Government, the district board shall report to the Chief Engineer, the agency by which it is proposed to have such works carried out, and shall follow the instructions issued by the Chief Engineer in the matter.

Tenders and Contracts.

14. *Procedure to be followed in case of other works.*—In the case of works carried out under clause (a) or clause (b) of rule 12 (2) the procedure provided by rules 15 to 26 shall be followed.

15. *Preparation of drawing, specifications, forms of tender, etc.*—When requested by the district board, the Chief Engineer shall, subject to the payment of the fees mentioned in rule 30, prepare working or contract drawings, specifications, estimates, bills of quantities, forms of tender, or other documents or plans required for the execution of schemes, which have been duly sanctioned and which are to be let out by contract, as well as forms of advertisement inviting tenders for such works.

16. *Approval of Chief Engineer to drawings, specifications, forms of tenders, etc.*—When drawings, specifications, bills of quantities, forms of tender and other documents or plans referred to in rule 15 relating to any work are not prepared by the Chief Engineer, such drawings, specifications, bills of quantities, forms of tender and other documents or plans, shall be submitted to him for his approval in writing before tenders for the contract of such work are advertised for.

Note (i).—The terms of a contract shall be precise and definite and there shall be no ambiguity or room for misconstruction therein.

Note (ii).—When necessary, legal and financial advice shall be taken in regard to the nature and form of a contract before it is finally accepted.

Note (iii).—The standard form of a contract shall be adopted wherever possible, and its terms shall be adequately scrutinized before it is finally accepted.

Note (iv).—Provision shall be made in contracts for safeguarding properties belonging to Government or local bodies when such properties are entrusted to a contractor.

17. *Advertisements inviting tenders.*—Every advertisement for tenders shall be published in one more newspapers and shall briefly describe the works required to be carried out and state the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender can be obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders will be received.

18. *Approval of plans, drawings, specifications, forms of tender, etc., by the district board.*—All plans, drawings, specifications, bills of quantities, forms of tender and advertisements shall be formally approved by the district board in meeting. Whenever the district board desires to make any alteration in any one of such documents, the Chief Engineer shall be informed and his advice obtained with regard to such alteration.

20. *Opening and numbering of tenders.*—The Chairman or the Vice-Chairman of the district board shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened.

21. *Checking and scrutiny of tenders.*—After the tenders have been opened, they shall be—

Provided that, in case (ii) or (iii), the engineer employed by the district board or the District Engineer, as the case may be, shall, in case of difficulty or uncertainty, consult the Chief Engineer.

22. *Return of tenders, after check and scrutiny.*—The Chief Engineer, or the engineer employed by the district board, or the District Engineer, as the case may be, shall, after checking and scrutinizing the tenders, return them to the district board with his remarks and recommendations.

23. *Consideration of tenders.*—The district board shall in meeting consider the tenders when checked and scrutinized under rule 22, and either accept one of them provisionally or, if the district board thinks it desirable, refer the matter to the Chief Engineer for advice.

24. *Acceptance of tender.*—No tender shall be accepted which is not in order, is not fully priced out, and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders. If the person making a tender makes in it after its submission any reduction or any alteration other than the correction of a palpable arithmetical error, that tender shall be out of order and shall not be considered. In cases where the lowest tender is not accepted the reasons for such non-acceptance shall be recorded, and in accepting a tender the financial status of the contractor shall be taken into consideration in addition to all other relevant matters.

25. *Discharge of tenders and advertisement for fresh tenders.*—If it is found that none of the tenders submitted is satisfactory, or if for any reason it is believed that the conditions of submitting tenders have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for.

26. *Provisional acceptance and submission of tenders to the Chief Engineer.*—Except in the case of tenders for works involving a cost not exceeding Rs. 500, every tender after it is provisionally accepted, shall be submitted to the Chief Engineer, for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the district board:

Provided that, in case of a difference of opinion between the district board and the Chief Engineer, in regard to the acceptance of a particular tender, the matter shall, if the district board so desires, be referred to the Chief Engineer, Roads and Buildings, whose decision shall be final and binding on all parties.

27. *Placing and acceptance of contracts.*—Whenever practicable, contracts shall be placed only after tenders have been openly invited. Even in cases where a formal written contract is not made, no orders for supplies shall be placed without a written agreement as to the price of the articles supplied. No contract involving an uncertain and indefinite liability, or containing any condition of an unusual nature, shall be accepted without the previous approval of the district board at a meeting. The terms of the contract, once accepted, shall not be materially varied without the previous consent of the district board.

28. *Bengal Public Works Department Code to apply to certain works.*—Works carried out under the complete supervision or control of the Chief Engineer under rule 12 (2) (c) shall be governed *mutatis mutandis* by the rules contained in paragraphs 175 to 180 of the Bengal Public Works Department Code (1st edition), and the Chief Engineer shall have the powers of a Superintending Engineer, Public Works Department, as defined in Government orders Nos. 126P.H. and 777P.H., dated the 14th January 1931 and 1st April 1932, respectively.

29. *Examination of contracts by audit authorities.*—The audit authorities shall have power to examine contracts and to report to the Local Government any cases where competitive tenders have not been called for, or where high tenders have been accepted, or where other irregularities in procedure have come to light.

Fees.

30. *Fees.*—For the services of the Chief Engineer specified in column 1 of the following table, the fees shown opposite in column 2 shall be payable by the district board:—

Nature of work.	Fees.
1	2
(a) Preparation of detailed estimates and drawings for projects and schemes.	2 per cent. on the estimated cost of the works.
(b) Preparation of contract drawings, specifications and forms of tender.	2 per cent. on the estimated cost of the works.
(c) Examination and check of detailed estimates and drawings for projects and schemes prepared by a different agency.	$\frac{1}{2}$ per cent. on the 1st Rs. 20,000 of the estimated cost and $\frac{1}{2}$ per cent. on the balance of the estimated cost of the works.

Provided that when the Chief Engineer prepares both (a) detailed estimates and drawings and (b) contract drawings, specifications and forms of tender in respect of the same works, an inclusive fee of 3 per cent. on the estimated cost of such works shall be payable.

Note 1.—In calculating the fees the cost of survey, land acquisition and supervision shall be excluded from the estimated cost.

Note 2.—These fees shall be included in the estimates and recovered by debit to the works as a first charge on the scheme.

Note 3.—The district board shall pay these fees in cash in accordance with the procedure laid down in article 426 of the Audit Code, if it abandons the detailed scheme at any time, or if, after budget provision has been made for the purpose, it is unable to commence the work within six months or such longer period as the Local Government may be pleased to allow of the final sanction of the scheme.

Note 4.—Under rule 5 fees are to be paid for the preparation of alternative plans and estimates for which application is made by the district board: but revision by the Chief Engineer on his own initiative of plans and estimates previously prepared by him with a view to effect economy or improvements does not amount to the preparation of an alternative scheme for the purpose of this rule.

31. *No charge for services of the Chief Engineer, or his assistants for preparation of sketch of project.*—When the preparation of the sketch of a project is undertaken or supervised by the Chief Engineer under rule 2, no charge shall be made for his services or for those of his assistants, or for the services of Government surveyors, draftsmen and tracers engaged in such work, and drawing materials and instruments required for such work shall be provided at Government expense:

Provided that the district board shall render all reasonable assistance on the spot in supplying survey coolies and survey pegs and in fixing bench-marks, etc., and shall pay the actual cost of the same, and shall also, in each case, provide a suitable office properly furnished for the use of the Government surveyors and draftsmen.

32. *Fees for supervision and control of works under rule 11.*—

(1) The fee payable for the supervision and control of works by the Chief Engineer under rule 11 shall be 8 per cent. on the actual cost of the work.

(2) The percentage prescribed in sub-rule (1) shall be debited to the work every month and shall be calculated on the total expenditure on the work for the month, no item of expenditure recorded in the accounts being exempt from the percentage charges.

Note.—The expenditure on land acquisition shall not be included in the calculation referred to in sub-rule (2).

later, and a second, third and fourth passage, if due under the provisions of Regulation 3 or Regulation 4 as the case may be, shall not be credited to the officer's account or that of his wife until the officer has completed 5, 10 and 15 years' service respectively from the date with effect from which the first credit is made: provided that if, before the conclusion of any such quinquennial period of service, any such officer applies to the sanctioning authority to receive any benefits prescribed in these regulations for himself, his wife or his children, as the case may be, he may be granted such benefits up to the value in each case of the amount which will fall due to be credited to his account on behalf of himself, his wife or his children, at the conclusion of such period of service, on his satisfying the sanctioning authority that he intends to complete the said period of service, and on his entering into a written agreement to that effect in the form prescribed by the sanctioning authority.

(2) For the purposes of this regulation the sanctioning authority shall be the authority which is empowered to grant leave to the officer concerned.

(3) This regulation shall not apply to officers who before the 17th May 1927 had been admitted without restriction, to the benefits prescribed in these regulations.

12. When a standard fare is increased or decreased, the balance at credit of each account referred to in Regulation 6 shall be increased or decreased, as the case may be, in proportion to the increase or decrease in that fare.

13. (1) An officer is entitled to the benefits provided by these regulations in respect of any journey between a port in India and a port outside Asia performed by himself or his wife, or any of his children which commences on or after 1st April 1924, and before the date of the officer's retirement: provided that—

(a) if an officer is proceeding out of Asia on leave preparatory to retirement, he, his wife, or any of his children shall be entitled to receive, so far as their respective credits permit, the benefits admissible under Regulation 6 or Regulation 7, as the case may be, for a single journey;

(b) if an officer having proceeded out of Asia on leave with the intention of returning to duty in India and having drawn for himself, his wife or any of his children the benefits admissible under Regulation 6 or Regulation 7, as the case may be, for a return journey, retires during or on the termination of such leave, he shall (unless he is an officer of Asiatic domicile or the Governor-General in Council is satisfied that the return to India or Burma of the officer or any member of his family is justified) refund to their respective passage accounts, the difference between the benefits admissible under Regulation 6 or Regulation 7, as the case may be, for a return and a single journey.

(2) An officer, his wife or any of his children shall be entitled to receive, so far as their respective credits permit, the benefits admissible for a single journey under Regulation 6 or Regulation 7, as the case may be, in respect of a journey from a port in India to a port outside Asia commenced within six and completed within twelve months after the officer's retirement.

14. Any balance remaining at the credit of any person in his or her personal account after such person has ceased to be eligible for any benefits under these regulations shall lapse to Government.

15. The Governor-General in Council may make supplementary regulations to carry out the purposes and objects of these regulations, and may sanction the relaxation of the provisions of regulation 10 (1); he may also with the sanction of the Secretary of State in Council by order in writing, direct that any of the provisions of Regulations 6, 7, 11 or 13 of these regulations be relaxed or varied in any particular case to such extent and subject to such conditions (if any) as he may think proper.

(b) The Executive Officer shall, not less than eighteen days before the date of election, scrutinise the nomination papers after giving three days' notice of the date, place and hours fixed for the purpose by publication in the cantonment office. V.—*Manner of holding election.*

17. The elections and casual elections shall be held on such dates as may be fixed by the Local Government and notified in the *Calcutta Gazette*.

18. In the event of the number of candidates for election in a cantonment or in any ward of it not being greater than the number of vacancies such candidates shall be deemed to be elected. If the number of candidates exceeds number of vacancies a poll shall be held.

19. The poll shall be held at such time and place as the Officer Commanding the station may determine, and the place at which and the hours between which the votes will be recorded shall be notified by beat of drum, and by the publication of notices at the same time as the list of candidates is published under Rule 15.

20. After the second hour mentioned in the notice referred to in rule 19 no elector shall be admitted within the building or enclosure within which the election proceedings are being held, but the votes of all duly enrolled electors who are already within the building or enclosure shall be recorded.

21. Every elector shall be entitled to vote for the ward in which he ordinarily resides, or in which he is assessed to pay the rates in a cantonment in which there are wards and for no other.

He shall be entitled to give as many votes as there are vacancies for the ward in the Cantonment which is divided into wards and for a Cantonment which is not divided into wards he shall be entitled to give as many votes as there are vacancies.

He shall not give more than one vote to any one candidate.

22. The Officer Commanding the station shall appoint a polling officer, who is not himself a candidate for election, to preside at the election at each polling station. If the polling officer for any reason fail to attend, the Officer Commanding the station shall appoint another fit and proper person who is not himself a candidate for election to take his place.

23. All votes shall be given in person and no votes shall be received by proxy or in writing.

24. On the morning of the election day the polling officer shall be supplied with a ballot box provided with an aperture for receipt of voting papers, a copy of the electoral roll, and a bound book or books of voting papers serially numbered in foil and counterfoil, one voting paper for each voter entered in the roll.

25. The voting paper shall be printed in Bengali or English or both in Form C annexed to these rules, and shall contain the names of all the candidates arranged alphabetically in the order of their surnames.

26. (1) On the day of the election the polling officer shall admit to the polling station the candidates and such agents as may be selected by the candidates to assist in the identification of voters, provided that there shall be present at one time, in addition to the candidates, no more than one agent of each candidate.

(2) Besides candidates and their agents only voters and such person (if any) as may be admissible under special directions given by the polling officer shall be admitted to the polling station.

27. The candidates and their agents shall not speak to or address any intending voter in the polling station, but may submit to the polling officer objections to a voter on the following three grounds:—

First—That his name is not on the electoral roll of the ward or cantonment, if there are no wards, as the case may be, in respect of which the election is being held.

Second—That his claim to be a certain voter shown on the electoral roll is false.

Third—That he has already voted.

28. The procedure for recording each voter's vote shall be as follows:—

(i) As each intending voter enters the polling station, his name and his number in the electoral roll shall be called out so that everybody present can hear them.

(ii) No objection to a voter shall be entertained except on the grounds mentioned in rule 27.

(iii) Such objection shall be summarily decided by the polling officer, who may for this purpose obtain such evidence as may be available on the spot.

(iv) If after taking such evidence the polling officer is satisfied that the voter is entitled to vote, he shall hand him the foil of a voting paper and allow him to proceed to vote.

(v) The number of the voter in the electoral roll shall be marked on the counterfoil of the voting paper.

(vi) The voter on receiving the voting paper shall forthwith proceed to the place set apart for the purpose and there mark a cross against the name of the candidate or candidates for whom he intends to vote. He shall then fold the voting paper so as to conceal his vote and shall put the voting paper, so folded up, into the ballot box. He shall vote without undue delay, and shall quit the polling station as soon as he has put the voting paper into the ballot box.

(vii) If the voter is unable to read the voting paper, or to make a cross thereon, the polling officer shall mark the vote on the voting paper according to the direction of the voter. The voter shall then put the voting paper folded up into the ballot box.

29. Immediately before the commencement of the poll the polling officer at any polling station shall show the ballot box to be used at the poll to such persons as may be present in such station, so that they may see that it is empty and he shall then lock it up and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall keep it so locked and sealed. On the conclusion of the poll the ballot box shall be opened and the votes counted in the presence of the candidates or their agents by the polling officer and the polling officer shall then and there declare the candidate or candidates as the case may be, to whom the largest number of valid votes has been given, to be elected and report the result of the election to the Executive Officer. He shall also seal up the book of counterfoils and unused foils of voting papers and make it over to the Officer Commanding the station, who shall keep it sealed in his own custody till it is destroyed under rule 34.

30. Any voting paper which is not duly marked or on which a mark is placed in such a manner as to make it doubtful to which candidate it has been given or on which any mark is made by which the voter may afterwards be identified shall be invalid.

31. If there be an equality of votes for the same vacancy, and if the number of vacancies does not admit of all the candidates who have obtained an equal number of votes being elected, the election of one of such candidates shall be made by lot to be drawn by the polling officer in such manner as he may determine.

32. In the event of any candidate being elected for more than one ward, in a cantonment in which there are wards, he shall, within five

days from the date of election, declare which ward he will represent; and if he fail to make such declaration, the Officer Commanding the station shall forthwith declare the ward which such candidate shall represent, and in either case such candidate shall be held to be elected in the ward in respect of which either of such declaration has been made, and in every other ward in which the said candidate has been returned, the result of the election shall be determined as if no votes had been recorded for him, provided that if there is no other candidates for whom votes have been recorded to fill the vacancy thus caused, a fresh election shall be held.

33. When the voting papers have been scrutinized and counted they shall forthwith be replaced in the ballot box from which they were taken, and the box, after being locked and sealed with the cantonment seal, shall be kept by the Executive Officer in safe custody.

34. On the expiry of fifteen days from the date of declaration of the result of election, the voting papers in the ballot box and the sealed book containing unused voting papers and counterfoils in the custody of the Officer Commanding the station shall be destroyed in the presence of the such member of the Board or officers as the members at a meeting may appoint for this purpose.

35. The name or list of duly returned candidate or candidates, as the case may be, for the whole cantonment shall be forwarded by the Executive Officer to the District Magistrate, who will forward the same to the Local Government for publication in the *Calcutta Gazette*.

VI.—Disputes.

36. All disputes arising under these rules shall be decided by the Officer Commanding the station, and his decision shall be final. A breach of these rule renders a person liable to the penalty provided by section 268 of the Act. The offence of personation, of undue influence and of bribery at an election are punishable under sections 171E and 171F of the Indian Penal Code, 1860, as amended by the Indian Elections Offences and Inquiries Act, 1920 (XXXIX of 1920).

(1) The rate of Re. 1-15 shall be levied per acre of which the raiyats, including persons holding non-agricultural tenancies, shall pay annas 15-6 pies per acre and their landlords of all grades together annas 15-6 pies per acre.

Common lands, such as rivers, roads, khals, burning ghats, etc., shall be excluded from assessment, but not tanks even if used for irrigation.

(2) Landlords shall pay the raiyats' share for lands in their khas possession and raiyats shall pay the full raiyati rate for lands covered by their holdings.

(3) Rent-free holders whether of the grade of raiyats or tenure-holders shall pay the whole of the landlords' share for their lands.

(4) As between the different grades of landlords, the landlords' share shall be apportioned thus:—

(a) permanent tenure-holders whose rent or rate of rent is fixed in perpetuity shall pay their own share of the cost and that of the landlords superior to them;

(b) other permanent tenure-holders and temporary tenure-holders whose lease has over fifteen years to run shall pay three-fourths of the landlords' share and their landlords shall pay the remaining one-fourth;

(c) temporary tenure-holders whose lease has fifteen years to run shall pay 15/16ths of the share which they would pay in accordance with (b) above if they were permanent tenure-holders and if less than fifteen years, proportionately according to the number of years of the lease to run;

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 25th January 1937:—

L. A. BILL NO. 1 OF 1937.

A Bill further to amend the Indian Boilers Act, 1923, for certain purposes.

WHEREAS it is expedient further to amend the Indian Boilers Act, 1923, for the purposes hereinafter appearing; It is hereby enacted as follows:—

Short title and commencement.

1. (1) This Act may be called the Indian Boilers (Amendment) Act, 1937.

(2) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Application of Act.

2. The Indian Boilers Act, 1923 (hereinafter referred to as the said Act), shall, in its application to British India, including British Baluchistan and the Sonthal Parganas but excluding Burma, be amended in the manner hereinafter provided.

Amendment of section 2, Act V of 1923.

3. In section 2 of the said Act, after clause (a) the following clause shall be inserted, namely:—

“(aa) ‘Board’ means the Central Boilers Board constituted under section 27A;”.

Insertion of new section 27A in Act V of 1923.

4. After section 27 of the said Act the following section shall be inserted, namely:—

“27A. (1) A Board to be called the Central Boilers Board shall be constituted to exercise the powers conferred by section 28.

Central Boilers Board.

(2) The Board shall consist of fourteen members, namely:—

(a) a chairman to be nominated by the Governor General in Council;

(b) one member to be nominated by each of the Local Governments of Madras, Bombay, Bengal, the United Provinces, the Punjab, Bihar, the Central Provinces, Assam, the North-West Frontier Province, Sind, Orissa and Delhi; and

(c) one member to be nominated by the Chief Commissioner of Railways.

(3) Any vacancy occurring in the Board shall be filled as soon as may be by a nomination made by the authority by whom the member vacating office was nominated.

(4) The Board shall have full power to regulate by by-laws or otherwise its own procedure and the conduct of all business to be transacted by the Board.

(5) The powers of the Board may be exercised notwithstanding any vacancy in the Board."

Amendment of
section 28, Act V
of 1923.

5. In section 28 of the said Act,—

(a) for the words "Governor General in Council", in both places where they occur, the word "Board" shall be substituted; and

(b) after clause (a) the following clause shall be inserted, namely:—

"(aa) for prescribing the circumstances in which, the extent to which, and the condition subject to which variation from the standard conditions laid down under clause (a) may be permitted;".

STATEMENT OF OBJECTS AND REASONS.

The Government of India Act, 1935, assigns the subject of "Boilers" to the concurrent field. While the Central Legislature will, after 1st April, be able to legislate in that field, the power of making regulations, which is an exercise of executive authority, will vest in the Provincial Government except in so far as the regulations relate to railways, in which case the Central Government will be responsible. It is most undesirable from the point of view both of industry and of administration that there should be a series of separate codes; but the frequent modifications in the code necessitated by the constant developments in boiler practice cannot, without great inconvenience, be achieved by continual legislation. The Bill accordingly provides for the constitution of a Central Board which will have the authority to make regulations which is at present exercised by the Government of India. The powers at present vested in Provincial Governments will not be affected. The proposal was discussed at the Industries Conference held in Lucknow in December 1936 and secured general approval.

The Bill also provides an amendment to section 28 which will make it possible to permit variations in special circumstances from such standard conditions as may be prescribed for the construction of boilers.

Amendment of section 38, Act IX of 1910.

5. In section 38 of the said Act,—

(a) sub-section (3) shall be omitted, and

(b) sub-section (4) shall be re-numbered as sub-section (3).

STATEMENT OF OBJECTS AND REASONS.

The Government of India Act, 1935, assigns the subject of "Electricity" to the concurrent field. While the Central Legislature will, after 1st April, be able to legislate in that field, the power of making rules, which is an exercise of executive authority, will vest in the Provincial Governments except in so far as the rules relate to railways, mines and oil fields, in which case the Central Government will be responsible. It is most undesirable from the point of view both of industry and of administration that there should be a series of separate codes; but the frequent modifications in the code necessitated by the constant developments in electrical practice cannot, without great inconvenience, be achieved by continual legislation. The Bill accordingly provides for the constitution of a Central Board which will have the authority to make rules which is at present exercised by the Government of India. THE SCHEDULE—*contd.*ENACTMENTS REPEALED—*contd.*[See section 6 (1)]—*contd.*

Year.	No.	Short title.	Extent of repeal.
<i>Acts of the Governor General in Council—contd.</i>			
1901	XI	The Amending Act, 1901.	So much of the First Schedule as relates to the Madras Inland Customs Act, 1844, and the Madras Inland Customs (Amendment) Act, 1893.
1920	XXXVIII	The Devolution Act, 1920.	So much of the First Schedule as relates to Act XXIX of 1857.
<i>Acts of the Indian Legislature.</i>			
1934	XIV	The Sugar (Excise Duty) Act, 1934.	Sub-section (2) of section 6.
1934	XXXII	The Indian Tariff Act, 1934.	Section 7.
		<i>Madras Act.</i>	
1893	II	The Madras Inland Customs (Amendment) Act, 1893.	The whole.
		<i>Bombay Acts.</i>	
5	III	The Bombay Decentralization Act, 1915.	The Second Schedule.
1	II	The Bombay Short Titles Act, 1921.	So much of the Schedule as relates to the Bombay Land-customs Act, 1857.

STATEMENT OF OBJECTS AND REASONS.

In view of the existing definition of 'foreign territory' the Indian Land Customs Act, 1924, does not apply to the frontiers of Indian States. It has therefore been necessary to utilise the provisions of the Bombay Land Customs Act, 1857, in connection with the land customs lines which have been established on the frontiers of Kathiawar and Cutch. Experience has shown that the Bombay Act is seriously defective in several respects, and it is therefore proposed that the all-India Act should now be made applicable to all frontiers.

2. It is also proposed that sections 88 and 168 of the Sea Customs Act should now be included in the list of sections which apply to the land frontiers. Section 88 gives the customs authorities power to dispose of unclaimed goods and section 168 gives power to confiscate vehicles used for the conveyance of smuggled goods. It has been found that these powers are required by the land customs officers.

3. The proposed amendments will not in any way prejudice the treaty rights of the States and do not imply any intention of extending or increasing the existing land customs lines. Their purpose is merely to secure uniformity in customs administration throughout India.

CALCUTTA, THE 14TH JANUARY 1937.

RESOLUTION—No. 214M.

Minister-in-charge : The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

READ—

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1934-35.

Number of municipalities and Revision of boundaries.—The number of muni-

cipalities was the same, viz., 117, as in the preceding year. The revision of boundaries of the municipalities in the 24-Parganas affected by the last survey and settlement operations was nearly completed during the year under review. There was a slight change in the boundaries of the Khardah and Titagarh municipalities (24-Parganas) owing to the transfer of the Titagarh outfall works area from the former to the latter municipality.

The two hill municipalities of Darjeeling and Kurseong continued to be administered under the Bengal Municipal Act of 1884. The question of the introduction of the new Bengal Municipal Act in the district of Darjeeling was under the consideration of Government.

2. Elections.—General elections were held in 10 municipalities which had still to fall into line by reconstituting themselves under the new Act. All of these, except one, were in the Presidency Division.

In the South Suburban and Gobar-danga municipalities the election was held by the District Magistrate and the Subdivisional Officer, respectively, under special orders of Government according to the provision of rule 46 of the election rules.

The general election held in the preceding year was completed in the Kandi and Hooghly-Chinsura municipalities. In the latter municipality, a suit to set aside the election in a general ward was eventually dismissed by the High Court.

Certain by-elections in Hooghly-Chinsura, Serampore and Uttarpara had to be abandoned under orders of Government, as the electoral roll was found to be out of date.

3. Meetings.—There were in all 2,994 meetings held in the year as against 2,524 in 1933-34. Of these 390 meetings, or 13 per cent., were unsuccessful or adjourned as against 422 or 16 per cent. in the preceding year. The results of the year, therefore, showed only a very slight improvement.

The Hooghly-Chinsura municipality held the largest number of meetings, viz., 62, of which, however, as many as 23 had to be adjourned. Jiaganj-Azimganj held the next largest number of meetings, viz., 58, followed by the Santipur and Bhola municipalities, which met 53 times each. At the other end, Ramjibanpur and Tangail held 12 meetings each while Kanchrapara held only 11. The default has not been explained.

The average attendance of commissioners at meetings was on the whole satisfactory. Six municipalities attained an average of over 80 per cent. while 13 others failed to reach the 50 per cent. mark. The percentage was highest in North Dum Dum (89·9) and lowest in Budge Budge (35·2).

The Commissioner of the Rajshahi Division has again drawn attention to the declining attendance of official members in the Bogra municipality. It is to be hoped that official members will in future show a better example, especially in a municipality which has one of the lowest records of average attendance in the Presidency.

4. Ratepayers.—The total number of ratepayers was 343,603 or 1,143 less than in 1933-34 and the percentage they bore to the total population was 14·9.

The percentage of ratepayers to the municipal population varied from 3·2 per cent. in Bhatpara, a mill town with a large labour population, to 43·7 in Kumarkhali, a small decaying borough in the Nadia district.

In the two hill municipalities of Darjeeling and Kurseong, the percentage remained practically stationary, viz., 9·6 and 6·4, respectively.

Among towns in which less than a tenth of the population figured in the rating list were Jalpaiguri (9·1), Mymensingh (8·3), Narayanganj (8·4) and most of the riparian municipalities on both sides of the Ganges in which the population is mostly composed of mill operatives who pay no rates themselves.

5. Assessment and taxation.—The total receipts from the municipal rates and taxes rose from Rs. 71,17,000 to Rs. 74,29,189. The average incidence of taxation for the whole province was Rs. 3-3-9 as compared with Rs. 3-1-2 in the preceding year. The highest incidence of taxation was, as usual, shown by Darjeeling, viz., Rs. 12-8-3, the other hill municipality of Kurseong coming next, with Rs. 8-14-3. Of the plains municipalities, the two at the top were, as usual, Howrah, with a figure of Rs. 7-7-11 per head and Dum Dum with Rs. 6-9. Eleven other municipal towns exceeded an average of Rs. 4 per head. In 20 municipalities the incidence of taxation was below one rupee and in four of these it fell below half a rupee, the smallest figure being represented by Baduria (Rs. 0-6-8).

Generally speaking, the incidence of municipal taxation was exceptionally low. In the Bombay Presidency, for example, the average incidence of taxation in the mufassil municipalities was Rs. 5-7-9 in 1934-35. The new Municipal Act has placed additional powers of taxation in the hands of the municipal commissioners and apart from the exceptional conditions prevailing in some of the decaying petty municipalities, the level of taxation would appear to be susceptible of improvement in the majority of the municipal towns.

An unduly low pitch of taxation necessarily spells an unsatisfactory standard of municipal service.

General revision of assessment was undertaken in a number of municipalities although in several cases effect could not be given to the revised assessment till the following year after the disposal of objections made against the new assessment. In several other municipalities, however, the general revision made in the preceding year took effect at the commencement of the year under review.

The municipality of Kalna obtained an increase of Rs. 2,506 as a result of the revision. Tamluk suffered a slight loss as the result of a law suit in which it was held that the rate at which the tax on holdings and the conservancy rates had been assessed was higher than was permissible under the law.

The municipality of Kotrung obtained a total increase of Rs. 3,745 through the adoption of increased scales for holding and conservancy rates. The mill municipality of Bhadreswar, on the other hand, lost Rs. 2,272 of its income by reduction of conservancy rates on cooly lines of mill bustees. Similarly there was a decrease of Rs. 4,320 in the Bally municipality owing to the compounding of conservancy rates of certain jute mills and the railway.

The Titagarh municipality alone in the Presidency Division gave effect to the revised assessment, while Barasat and Baruipur replaced the tax on persons by a rate on holdings.

In the Rajshahi Division there was general revision of assessment in Dinajpur, Pabna and Darjeeling. In Darjeeling the revision yielded an increase of Rs. 6,561 on the demand per quarter. Dinajpur is expected to augment its income by Rs. 19,000 through the change over from the tax on persons and at Pabna an increase of 50 per cent. was expected from the revision. These results were tentative, being subject to review by appeal committee.

Five municipalities in the Dacca Division replaced the personal tax by the rate on holdings. The municipality of Dacca added Rs. 5,731-4-0 to its income as the result of a partial revision. Faridpur and Kishoreganj increased their revenue demand by Rs. 2,624 and Rs. 2,091-6-3, respectively.

In the Chittagong Division Cox's Bazar replaced the personal tax by a tax on holdings; Comilla gained a net increase of Rs. 2,027 by partial revision.

The Commissioner of the Rajshahi Division has drawn the attention of Government to certain defects which he had occasion to notice in the new system of assessment in connection with the revision of assessment in the Serajganj and Pabna municipalities. His final report regarding the matter is being awaited and on its receipt the whole question will be further examined by Government.

There is still a number of municipal bodies which are clinging to the obsolete system of assessment of tax on persons. It is hoped that these municipalities will soon fall into line with the rest by substituting a rate on holdings for the personal tax.

6. Collections.—The total collections for the Presidency as a whole increased from Rs. 69·28 lakhs to Rs. 70·79 lakhs and the percentage of collections on the current demand also rose from 92·8 to 93·5. It was only in the municipalities of the Dacca Division that there was a set-back. In 25 municipalities the collections were equal to or in excess of the current demand and in 31 others it was over 95 per cent. The good results attained in these towns show that where method is employed and attention and care are devoted to the work of collection, the municipal dues can be satisfactorily collected, in spite of the handicap of economic depression. The best record was achieved by Kishoreganj where the collection amounted to 139·9 per cent. of its current demand. In 14 municipalities, on the other hand, the ratio fell below 85 per cent., and was as low as 63·4 per cent. in Bankura. The poor collection in Bankura is attributed partly to a very large number of objection petitions against the revision of assessment made during 1933-34 and partly also to the economic depression.

Bhadreswar and Champdany collected practically the whole of their demands after granting not more than one half per cent. remissions, no outstanding balance being left in the former and only Rs. 9 in the latter. Once again, the Garulia municipality had the striking distinction of collecting its entire demand without any remission and without leaving any outstanding balance. In the Chittagong

Division, collections improved considerably in Chandpur and Noakhali and to a lesser extent in Chittagong, Comilla and Brahmanbaria.

The improvement at Chandpur is reported to have been due to the insistence on the part of two nominated commissioners, Messrs. Elder and Main, under a threat of resignation, on better supervision and on the strict issue of distress warrants. Several municipal towns in the Rajshahi Division, notably Rangpur, Pabna and Rajshahi, which had attracted unfavourable criticism on account of bad collection in previous years, showed considerable improvement. The noticeable fall in collection in Nawabganj, Old Malda and English Bazar municipalities is reported to have been due, to some extent, to the delay in the disposal of a large number of objections made against the new assessments.

The amount of remissions for the province as a whole rose by nearly a lakh of rupees to Rs. 6 lakhs and represented 7.9 per cent. of the current demand as compared with 6.8 per cent. of the previous year. The municipality of Baraset remitted as much as 44.8 per cent. of its current demand but it still had an outstanding balance of Rs. 6,530 out of a total demand of only Rs. 17,945. No explanation has been offered for such unusually heavy remissions. Large remissions were also granted by Howrah (Rs. 1,55,454), South Dum Dum (Rs. 24,224), Budge Budge (Rs. 19,993), Mymensingh (Rs. 19,808), Hooghly-Chinsura (Rs. 17,350), Chittagong (Rs. 16,331) and Asansol (Rs. 15,800). These remissions are generally ascribed either to the writing off of irrecoverable arrears or to reductions granted by the Assessment Review Committees in connection with the general revision of assessments, but a considerable proportion of the arrears written off as irrecoverable arrears would probably have been realised had prompt measures been taken in proper time. A sum of Rs. 43,603 or 7.6 per cent. of its current demand was remitted by the Dacca municipality which still carried forward an outstanding balance of Rs. 1,35,110 at the close of the year.

The arrear balances outstanding at the end of the year under review stood at Rs. 28.80 lakhs against Rs. 28.81 lakhs of the previous year. Of this balance Howrah alone was responsible

for nearly Rs. 10½ lakhs. The other municipalities with large outstanding arrears were Mymensingh (Rs. 1,21,712), Tollygunj (Rs. 93,946), Hooghly-Chinsura (Rs. 90,661), South Suburban (Rs. 68,959), Barisal (Rs. 66,169), Bakura (Rs. 64,868), Comilla (Rs. 63,654), Asansol (Rs. 57,539), Bally (Rs. 56,860) and Serampore (Rs. 51,987). In Dacca and Barisal, the arrears are being gradually reduced while in Mymensingh they are on the increase. In Tollygunj, the heavy outstanding balance was due to the accumulation of a large amount of irrecoverable arrears. In the South Suburban municipality, it was due to bad collections and the collection department had to be superseded by Government and placed in charge of the Subdivisional Officer of Alipore. The situation is now reported to have improved considerably. The outstandings elsewhere have not been satisfactorily explained but the reports from all the divisions assert that, apart from the general economic distress, they were due, in a considerable measure, to the disinclination on the part of most municipal executives to take adequate coercive measures for realisation. Municipal incomes are everywhere made up of a large number of small sums collected from a population which comprises a large number of poorer people and laxity in collection not only results in accumulation of large balances which tend to become irrecoverable but has a demoralising result on the rate-payers themselves.

7. Income, expenditure and closing balance.—The total receipts, including opening balances, fell from Rs. 114.9 lakhs to Rs. 113.9 lakhs and the total disbursements from Rs. 101.6 lakhs to Rs. 99.6 lakhs. Only the municipal bodies in the Burdwan Division showed an increase in income and expenditure. There was a slight set-back in the Chittagong and Rajshahi Divisions. In the Presidency Division, the decrease was abnormal owing to large non-recurring receipts and disbursements in the Bhatpara municipality in the previous year in connection with the town improvement scheme.

The total balance at the close of the year amounted to Rs. 14.39 lakhs against Rs. 13.29 lakhs in the preceding year; the largest balance, for which no explanation has been furnished, being held by Dacca (Rs. 2,16,619). The other

municipalities with noticeably large closing balances were Darjeeling (Rs. 1,43,629), Howrah (Rs. 1,42,727), Baranagar (Rs. 58,889) and Budge Budge (Rs. 48,328). Baranagar has been conserving its balance for its water supply scheme and Budge Budge has a town improvement scheme under contemplation. On the other hand, a very large number of municipalities failed to keep adequate working balances, and in several instances the balances left were quite insufficient to meet the outstanding liabilities. The worst offenders in this respect were Baraset, which, with liabilities exceeding its current demand, had no balance left at the close of the year, and Midnapore, which had a closing balance of Rs. 3,499 only against debts amounting to Rs. 51,414.

Nine municipalities, large and small, shared the record of closing their accounts without owing any sum whatever to any creditor. Prominent among these were Kurseong, Jalpaiguri, English Bazar and Bhadreswar.

8. **Education.**—There was a further increase of Rs. 25,313 in educational expenditure of which only about Rs. 12,000 was on account of primary education. As the Government grants exceeded those for the previous year by about Rs. 14,500, the actual increase in expenditure from the municipal funds was by no means considerable. The ratio of the total expenditure on primary schools (Rs. 3,87,683) to the total educational expenditure (Rs. 5,77,881) remained practically the same, viz., 67 per cent.

In 1892 it was laid down as an approximate standard for the guidance of municipalities that provision should be made for the primary education of not less than half the male population of school-going age at the rate of 10 annas per head which the returns showed to be the average yearly net cost of the education of pupils of this class in Bengal. The total sum thus calculated amounted approximately to 3·2 per cent. of the aggregate income of the municipal bodies. It was, therefore, prescribed in recognition of the many and various objects among which the municipal funds had to be distributed, that any municipality which devoted as much as 3·2 per cent. of its ordinary annual income to this purpose might be held to have performed its duty in regard to primary education.

This standard, however, proves somewhat misleading in the case of a municipality like Howrah with a very large income or in the case of one like Darjeeling with a considerable revenue but a comparatively small population. For example, although the expenditure of the Howrah municipality on primary education was 3·02 per cent. of its annual income and thus below the standard, it actually represented 4·8 annas per head of population while the average expenditure of all municipalities was only 2·7 annas per head of population although the total expenditure of all municipalities on primary education represented 4·32 per cent. of their total ordinary income. Similarly Darjeeling spent as much as 8·4 annas per head of population although its expenditure on primary education represented only 2·58 per cent. of its ordinary income.

The aggregate expenditure of all municipalities on education represented 4·02 annas per head of population and that on primary education 2·7 annas. The expenditure on primary education from municipal funds alone averaged 1·7 annas per head of population. This expenditure works out at 11·4 annas per each ratepayer.

Besides Howrah and Darjeeling which, as already observed, were exceptional cases, 7 other municipal bodies failed to attain the minimum standard without adequate reason, Dum Dum coming last with an expenditure of only Rs. 560 or 1·2 per cent. of its total ordinary income on primary education. No municipality in Dacca, Chittagong or Rajshahi Division spent less than 3·2 per cent. on primary education. The expenditure of 57 municipalities on primary education exceeded 5 per cent. of their ordinary income while 28 municipal bodies spent over one-tenth of their income on primary education. Chittagong easily maintained its pride of place, having spent 30·2 per cent. of its ordinary income on primary education. As a result of the introduction of free and compulsory education, the number of schools and students in that municipality is steadily on the increase. The Minister takes this opportunity of congratulating the Chittagong municipality on its exemplary enterprise in the matter of the extension of primary education.

The Commissioner of the Presidency Division has commented on a tendency

in certain municipalities to grant municipal aid to secondary schools without having fully discharged their obligations towards the encouragement and expansion of primary education. The Minister agrees that this tendency, which is by no means new, is to be strongly deprecated and trusts that all municipalities will ensure that their expenditure on secondary education is not disproportionately large as compared to that on primary education.

9. Water-supply.—The expenditure under this head—Rs. 10.1 lakhs—shows a net decrease of .8 lakhs as compared with the expenditure in the previous year. This decrease, which was shared by all divisions, was mainly due to curtailment of expenditure on capital outlay.

Asansol showed a large falling off as the municipality had adjusted an advance of Rs. 56,959 in the preceding year. The Dum Dum municipality decreased its expenditure by Rs. 15,277 as no payment was made to the Corporation of Calcutta for supply of water during the year and the closing down of one of the jails brought about a reduction in expenses. Barisal, which had incurred heavy expenditure on its waterworks extension scheme in 1933-34 showed a decrease of Rs. 17,894. Similarly Dacca spent less (Rs. 14,874) in the year under review as it had met outstanding bills in the previous year. Abnormally large expenditure incurred in the preceding year also explains the large decline in expenditure in Darjeeling. The decrease in the case of Chandpur (Rs. 27,559) has not been explained. There was, however, a large increase in expenditure in Howrah (Rs. 56,803) and an appreciable increase in Faridpur (Rs. 6,526), Budge Budge (Rs. 5,102), Midnapore (Rs. 3,879) and English Bazar (Rs. 6,629).

The Dacca municipality added to its street hydrants and the number of private house connections also increased considerably.

The West Bank water-supply of Narayanganj is reported to be in need of urgent improvement. The municipal commissioners are, however, unwilling to take a loan to meet the whole cost and have been pressing for a Government grant.

A scheme at an estimated cost of Rs. 1,20,000 has been sanctioned for the improvement of the Mymensingh waterworks.

The commissioners of the Barisal Municipality are considering a proposal for using electric energy for their waterworks.

The independent water-supply scheme of Serampore has been sanctioned by Government and the work is in progress. The Hooghly-Chinsura municipality drew up a scheme of improvement and extension at an estimated cost of Rs. 1,27,000 and approached Government for a loan of Rs. 95,000.

Some of the Suburban municipalities which, as usual, obtained their supply of water from the Calcutta Corporation, had to supplement their water-supply by means of tube-wells.

Several riparian municipalities, e.g., Baranagar, Bhatpara, Halisahar and Kanchrapara had under contemplation independent water-supply schemes. The commissioners of the Khulna municipality were anxious to carry out their waterworks extension scheme.

The commissioners of the Chittagong municipality, who spent Rs. 38,811 on their water-supply, endeavoured to supply filtered water to every bustee but the supply was not equal to the demand and the pressure was not sufficient to carry water to the elevated grounds.

The Rajshahi waterworks scheme made no advance owing to financial difficulties; a revised scheme at a total cost of Rs. 2,33,000 was, however, sent up after the close of the year.

The Pabna scheme continued to be at a standstill and there was no prospect of its materialising until the finances of the municipality improved and the would-be donors made good their promise.

The Jalpaiguri waterworks were opened during the year. There was no progress made in regard to house connections. A large percentage of iron making the water unsuitable for drinking, was found on chemical analysis and a supplementary scheme with an iron eliminating and chlorinating plant has been sanctioned since the close of the year.

The existing waterworks are reported to be working satisfactorily.

and the standard of purity was maintained.

Several municipalities with limited resources showed considerable activity in sinking tube-wells in preference to having waterworks of the conventional type and some of the larger municipalities with better financial resources also made use of this method. Thirteen tube-wells were added by the Burdwan municipality to the outlying mahallas not provided with filtered water-supply. Bally maintained 63 tube-wells without charging any water-rate and some industrial concerns and private persons provided taps for public use. Kalna sank an additional tube-well of 4-inch diameter at a total cost of Rs. 1,500 thus providing two tube-wells fitted with steam pumps which supplied pure drinking water to two-thirds of the total population through 33 hydrants. The municipality of Budge Budge spent Rs. 5,102 more on water-supply by excavating one tank for supply of drinking water and by acquiring land for another, while Kamarhati and Panhati increased their expenditure by Rs. 1,902 and Rs. 1,774, respectively, by sinking more tube-wells. Most of the other municipalities without waterworks sank tube-wells for the supply of good drinking water for which there was an increasing demand.

10. Conservancy.—There was a falling off in the expenditure on conservancy which amounted to Rs. 26.09 lakhs against Rs. 28.99 lakhs. This decrease, which was much more apparent than real, is principally accounted for by the decrease of Rs. 3.77,285 in expenditure at Bhatpara which represented adjustment of accounts of expenditure made with the Public Health and Land Acquisition Departments towards the Town Improvement Scheme.

The expenditure on this head was, as usual, far in excess of the income from the conservancy rate which totalled only Rs. 15.97 lakhs, the balance being generally met from the General Fund. No serious attempt appears to be made to make this special service rate fund self-supporting as is contemplated in law and as would only be business-like and the Minister desires to invite the attention of the municipal executives to this important matter.

The Bhatpara sewerage scheme which was completed during the year furnishes an interesting model of sewerage for industrial towns, Titagarh being the other mill municipality provided with a sewerage scheme in working order.

Howrah increased its expenditure on conservancy by Rs. 33,967. Dacca spent Rs. 21,103 more on conservancy, mainly for erecting quarters for the sweepers. The municipality of Narayanganj also took up a new scheme for building methars' sheds and gowkhana which accounted for an increased expenditure of Rs. 11,148. Several other municipalities paid attention to improvement in the conditions of life of their sweeper staff. Some municipal bodies reduced their expenditure by reducing the conservancy staff which is *prima facie* a policy of doubtful economy.

The Ranaghat municipality purchased a motor lorry for road watering. Bogra made an experiment in watering some of its roads by laying pipes and had in view a scheme for extending the system to the whole town by taking a loan from Government.

The insufficiency of trenching grounds and the inefficiency of the night-soil service continued to attract notice. The problem of methar-supply is growing more acute and retards the possibility of any forward policy based on manual service. The cost of water-borne sewerage systems is at present too prohibitive for adoption by mufassil municipalities.

11. Drainage.—The total expenditure on drainage was Rs. 3.35 lakhs against Rs. 3.51 lakhs in 1933-34.

There was little of outstanding interest to record under this head. Most of the municipalities being confronted with financial difficulties, complete and effective schemes were out of the question.

The only event of note was a substantial drainage work in the Kamarhati municipality which was financed by the Kamarhati Improvement Fund created by Messrs. Jardine Skinner and Company at a total expenditure of Rs. 17,324.

The problem of drainage at South Dum Dum is under the consideration of the municipality in consultation with

the Public Health Department. Considerable deterioration in drainage is reported to have taken place in certain areas of Tollyganj owing to the silting up of the Bidyadhari. Drainage in this municipality is to a great extent dependent on that of Calcutta and co-operation with the Calcutta Corporation is necessary for effecting improvement.

The drainage project at Rajshahi, which is bound up with the waterworks scheme, made no progress.

The Dinajpur drainage scheme made no advance. The municipal commissioners were asked to improve the extremely insanitary condition of the town by making the drains converge at certain places to the Ghagra khal and by letting the drainage discharge into cesspools. The new body of commissioners are reported to be contemplating an improvement scheme with the aid of a loan from Government but no definite scheme has been prepared pending revision of assessment. The drainage at English Bazar continued to be unsatisfactory and calls for immediate attention. Some improvement was effected at Natore by the widening of culverts and the construction of a surface drain in order to remove the nuisance from the heart of the town.

12. Lighting.—The total outlay under this head was Rs. 7,15,421 representing an increase of Rs. 25,086.

The growth of local electric supply companies gives a hopeful promise of the electrification of important municipal towns within a measured time.

The municipality of Jalpaiguri completed the electrification of some of its main streets. The Barisal scheme came to fruition at the close of the year and effected a great improvement in the lighting of the town.

The electricity scheme at Rajshahi made progress and the draft license was under publication.

Other municipal towns which were considering proposals for electric lighting are Rishra-Konnagar, Kotrung (where the partial scheme had to be temporarily dropped owing to differences with the company) and Bansberia, which intends to take up lighting after the completion of the Tribeni Bridge. A partial scheme was drawn

up for Panihati and negotiations for installation of electric light were proceeding at Khulna and Kushtia. The Pabna scheme was at a standstill owing to the failure of the licensee to carry out the terms which led to the cancellation of the license.

Asansol installed electric street lights at considerable additional expenditure. Baranagar, Tollyganj and South Suburban provided additional street lights. The South Dum Dum municipality extended electricity to additional areas, almost all its main roads being now lit by electricity.

Darjeeling, which holds its own license, continued to make various improvements in the system of lighting and as a result showed a marked increase in expenditure (Rs. 20,204).

The lighting expenses in Dacca fell by Rs. 12,875 by reason of the fact that outstanding bills had been paid in the preceding year. Both Dacca and Narayanganj added more lights.

The long-standing quarrel between the Hooghly-Chinsura municipality and its electric supply company is reported to have been approaching an amicable settlement, the old agreement having been extended meanwhile.

Midnapore and Burdwan are the only towns which actually curtailed their expenditure on lighting. Krishnagar purchased a large number of petromax lamps which are now replacing kerosine lights in many towns, especially in the main roads.

There were several small rural townships which spent nothing on lighting because they could not afford the cost of putting up lights.

13. Public Health.—The total expenditure on hospitals and dispensaries was Rs. 3.90 lakhs against Rs. 3.87 lakhs in the preceding year, representing an increase of Rs. 3,000 only.

Municipal authorities generally showed keenness and energy in taking adequate measures for the prevention and control of epidemics.

An epidemic of smallpox which broke out in Suri was promptly checked by preventive measures. Adequate action is said to have been taken by almost all municipalities to vaccinate and revaccinate children, primary and secondary vaccinations being mostly given free.

The number of vaccinations, as far as a record has been made available, shows a falling off in the majority of towns. The mill municipalities of 24 Parganas have been specially mentioned for their organised campaign of vaccination. Many municipal towns employed permanent vaccinators, while Bankura employed an additional temporary vaccinator. Smallpox appears to have been more or less satisfactorily controlled in the municipal areas.

Comparatively mild epidemics of cholera broke out in Bankura, Vishnupur, Sonamukhi, Midnapore, Tamluk and Bally. Prompt measures of free and all round inoculation, complete disinfection and isolation brought these epidemics under control. Bankura utilised the aid of the public health staff of the district board as well as of the Government.

The Ardhodaya Yoga brought an influx of pilgrims to the municipal towns on the banks of the Ganges. Special measures for the prevention of epidemics met with complete success, except in Nabadwip where there were many attacks of cholera and some deaths. The Minister is glad to learn, that this municipality "boldly faced the situation and performed more than 15,000 inoculations."

As in the previous years, most municipal towns are reported to have taken steps to fill up, clear and disinfect insanitary tanks and ditches and to cut down jungles and obnoxious vegetation. Notices were freely served on owners, the results varying according to the determination shown in pursuing them. Certain municipalities in the 24 Parganas are said to have taken vigorous action in this direction. The semi-rural municipality of Brahmanbaria prosecuted 30 owners for non-compliance with these notices and this produced a salutary effect.

The eradication of water-hyacinth received special attention in certain municipalities, notably in Jessore and Kotchandpur. All private tanks in Jessore were cleaned of the pest and the portion of the river Bhairab, which had been cleaned in the preceding year, was kept clean with the enthusiastic help of the local public. Good work in this connection is also reported from Jalpaiguri and Gaibandha.

Anti-malarial measures were undertaken by many municipal authorities. The municipality of Arambagh received a Government grant of Rs. 2,000 which was spent in re-excavating insanitary tanks and removing jungles. In Raniganj, a similar grant of Rs. 1,000 was utilised in treating breeding places of larvæ such as tanks, wells and lower paddy lands with Paris Green, Malariol and Kerosene.

The Entomologist of the Public Health Department made a malaria survey of Narayanganj at the instance of the commissioners and anti-malarial works were undertaken according to a plan recommended by him.

At Rajbari, paesterine was freely sprayed over the usual breeding places. Special kerosinisation is also reported from Rajshahi and Dinajpur.

A malaria survey of Rangpur in 1933 showed the spleen rate to be at the maximum in the areas near and about the Skrine Canal which had been left uncared for and allowed to be partly silted up, thus obstructing drainage. The reclamation of the canal was undertaken in the year under review. Another spleen survey is contemplated to gauge the results. Anti-malarial work on scientific lines was undertaken at Krishnagar, Santipur and Kusthia. The Birnagar Palli Samiti continued to do admirable work in co-operation with the local municipality. The municipalities of North and South Dum Dum, Bhatpara, Budge Budge and Baruipur are reported to have done useful work in co-operation with local anti-malarial societies. The Minister observes with approbation that the control of malaria is receiving increasing attention.

Special arrangement for the treatment of kala-azar was made in some municipalities. The Nadia Branch of the Red Cross Society conducted one kala azar centre which was, however, handicapped for lack of funds.

The Krishnagar municipality opened clinics for the treatment of leprosy and tuberculosis.

The Dacca municipality conducted several free treatment centres for leprosy in which 726 cases were treated during the year. Two hundred and twenty-five more cases were diagnosed but these could not be induced to place themselves under treatment.

The system of decentralisation of anti-rabic treatment was introduced during the year. Several of the municipalities equipped their dispensaries for the purpose. Others pooled their resources in putting up treatment centres while some municipalities made contributions for the treatment of their residents in the neighbouring district board dispensaries.

Maternity and child welfare work received special attention from several municipal bodies. This work is, however, still at an elementary stage and progress is very slow for lack of funds as well as of a wider outlook. Training classes for dais were satisfactorily maintained at Krishnagar and Nabadwip and the maternity home at the latter place continued to do good work. Dai-training classes were also opened in some other towns with subventions from Government. Several municipalities employed trained midwives. Chittagong continued to arrange for free attendance at delivery cases among the poorer classes. Berhampore reserved one of the two parks opened by the municipality in commemoration of His Late Majesty's Silver Jubilee for the use of women and children.

The administration of the Food Adulteration Act is reported to have received considerable attention from the municipalities. The Commissioner of the Presidency Division remarks that the Act was more vigorously administered than in previous years and seizure and analysis of samples were more actively undertaken.

The Commissioner of the Dacca Division draws attention to the high percentage of adulteration in that town which calls for a special drive against the impurity of foodstuffs. The Minister agrees with the Commissioner that in cases in which the charge of adulteration is brought home, the sentences of fine should be as deterrent as the circumstances of each case demand.

The results of analysis appear to indicate, however, that in spite of the action which is reported to have been taken by most of the municipal authorities, the practice of adulteration of foodstuffs showed no signs of decrease. The Minister trusts, therefore, that the problem will be tackled with greater determination and that the work of the sanitary staff will be closely watched by the executive.

14. Public Works.—The total expenditure on public works rose from Rs. 11.75 lakhs to Rs. 12.36 lakhs. The municipalities in the Burdwan Division more than accounted for the whole of the increase as the municipal bodies in the rest of the Presidency registered a decline of Rs. 48,426 in their aggregate. By far the bulk of the expenditure was, as usual, on roads. The considerable increase of Rs. 97,329 under this sub-head in the municipalities of the Burdwan Division, a fairly large portion of which is, however, reported to have been spent in meeting arrear bills of previous years, was shared by 12 municipalities. Expenditure under this head must necessarily vary from year to year, but no explanation has been offered for the heavy falling off in several municipalities, as for example in Tollyganj and Baranagore, which had enhanced their outlay on roads in the previous year, but which showed a marked decrease in the year under review.

The condition of roads in most municipal towns is reported to have been far from satisfactory and in some cases deplorable. The Commissioner of the Presidency Division has expressed sympathy with the Krishnagar municipality in its problem of maintaining the large mileage of roads which is on the increase. As the resources of the commissioners of that municipality were not sufficient to maintain its roads in proper repair, the proper solution would appear to lie in a reduction in the mileage of its metalled roads. The Chittagong municipality was specially cautioned by the Commissioner to pay urgent attention to its bad roads. Darjeeling was responsible for the net decrease in expenditure on public works in the Rajshahi Division, this municipal authority having incurred large expenditure on capital works in the preceding year. Several of the headquarters municipalities in that division increased their outlay on roads, mainly on repair work. The roads of the Pabna municipality are reported to have been heavily damaged owing to the abnormal cart and motor traffic for the transport of materials required for the improvement of the Pabna-Isurdi Road which is being improved from the Provincial Road Fund. The programme of colfixing roads in Dinajpur town was continued.

15. Audit of accounts.—With the single exception of Serampore, the

accounts of all the municipalities were audited during the year under review. Embezzlements or defalcations of municipal funds occurred in Midnapore, Halisahar, Joynagar, Netrakona, Bhola, Comilla, Noakhali and Sherpur.

Two cases of defalcation came to light in Midnapore in which successive head clerks were believed to have been implicated. One ended in conviction and the other was pending. The old Burdwan embezzlement case was still pending as the accused continued to be untraced.

The tax daroga of Halisahar embezzled Rs. 1,042 but was allowed to pay up and was let off with dismissal. In Joynagar, the Vice-Chairman was on trial for alleged temporary misappropriation. The case at Netrokona is proceeding. A special audit at Bhola disclosed a serious state of affairs. A large amount was found to have been misappropriated and the ex-Chairman as well as practically the whole of the staff are being prosecuted.

The Dacca case of 1933-34 ended in conviction; the accused made good the money and was leniently treated by the Court.

The Comilla case involved a loss of Rs. 4,355. Two collecting sircars, against whom information had been lodged with the police, the tax daroga and the warrant peon were removed from service. Further report from Noakhali, where the cashier and the tax daroga are stated to have embezzled a few hundreds of rupees, is awaited.

A case of misappropriation at Sherpur was dealt with by the commissioners of the municipality. They fined the tax daroga and the collecting sircar and permitted these two culprits to resign. The municipal commissioners have been asked by the Divisional Commissioner to explain why they took the law into their own hands in this manner.

The auditor's notes do not show any very appreciable improvement on the state of affairs revealed in the previous year's reports. The principal defects noticed in the audit of accounts were, as usual, accumulation of arrears, disregard of rules and instructions—in many cases serious and deliberate, slack supervision by officers over the work of their subordinates and failure to take proper disciplinary action in cases of negligence on the part of the staff.

The attitude of the municipal bodies to the Audit Department is reported to have changed for the better in certain municipalities, but the Minister regrets to note that, generally speaking, answers to audit objections continued to be dilatory and evasive and he appeals to Chairmen of municipal bodies throughout the province to give their personal co-operation in the matter of dealing promptly with defects brought to light in audit reports.

16. General remarks.—It is sufficiently clear from many of the facts and figures quoted in this resolution that much good work has been done during the year. At the same time it is equally obvious that there are others which make gloomy reading.

Most of the municipalities have been marking time, while a few have gone ahead as far as possible within the limits imposed by the prevailing financial stringency. The difficulties of the smaller and semi-rural municipalities in making both ends meet and in giving the rate-payers some value for their money in the shape of even the barest minimum of the requirements of a municipal population appear to be really great; and the divisional reports have emphasised the fact that, such municipalities distinctly suffer by comparison with progressive union boards which have been established in places of equal or greater importance.

Government regret to have to observe that cliques and dissensions hampered progress and good administration in a large number of municipalities. As in the previous year, budget control of a number of municipal authorities had to be assumed and warnings had to be issued to several others by the Commissioners of Divisions and also by Government. The Minister appeals to municipal executives throughout the province to develop an adequate policy of improvement, particularly in the matter of punctual collection of municipal dues, a close observance of account rules and a more effective supervision over the municipal subordinates.

Government are glad to note the commendation bestowed by local officers on the administration of certain municipalities. The relations between local officers and the municipalities continued to be cordial and mufassal municipalities were, as a rule, free from political bias.

The names of the following gentlemen have been specially brought to the notice of Government on account of their public spirited work during the year under review :—

**DEPARTMENT OF AGRICULTURE,

Dacca, the 28th January 1937.

**Final Forecast of the Sugarcane Crop of
Bengal, 1936-37.**

(*Note.*—On an average of the five years ending 1934-35, the area under sugarcane in Bengal has represented some 7·2 per cent. of the total area under sugarcane in British India.)

Character of the season.—As indicated in the second forecast the weather was generally favourable although some damage was caused by floods. Since then harvesting operations are being carried on under favourable conditions and a satisfactory outturn is expected for the province.

Acreage.—The total area planted is estimated at 354,800 acres this year as against 325,400 acres last year.

Outturn.—According to the estimates of the District Officers, the average outturn of the crop for the province works out at 89 per cent. of the normal this year as against 83 per cent. last year.

Taking 56½ths maunds as the normal yield of cane *gur* per acre, the gross outturn for the province is estimated at 654,200 tons this year as against 559,600 tons last year.

Other sources of gur.—The total quantity of *gur* likely to be obtained from datepalm juice and other sources is estimated at 105,700 tons this year as against 95,800 tons last year.

The quantity of *gur* for the province from all sources is thus estimated at 759,900 tons this year as against 655,400 tons last year.

**Resolution on the annual progress report on the forest administration
in the Presidency of Bengal for the year ending the 31st March
1936.**

GOVERNMENT OF BENGAL.

Department of Agriculture and Industries.

Forests.

Calcutta, the 2nd February 1937.

RESOLUTION—No. 162For.

Read—

The annual progress report on the forest administration in the Presidency of Bengal for the year ending the 31st March 1936.

Read also—

The reports of the previous three years and the Government resolutions thereon.

Mr. E. O. Shebbeare was in charge of both the circles from the 1st April to the 14th April 1935. Thereafter, Mr. W. Meiklejohn from the United Provinces who was appointed to officiate as the Conservator of Forests, Bengal, held charge of the circles for the rest of the year.

2. *Area.*—The total area of reserved forests fell from 6,471 to 6,468 square miles, the decrease being mainly due to the exclusion of 2,595 acres from the non-Araipara Chakra portion of the Atia Forests in the Dacca-Mymensingh Division on account of the unwillingness of the proprietors of the forests to keep them under Government management. There was an increase of 147 square miles in the area of protected forests consequent mainly on the declaration of khas forests in the Chittagong Division as protected forests. The area of unclassified forests remained unaltered. As a result of these changes the total area of all forests (excluding leased lands) at the close of the year stood at 10,802 square miles or 14.03 per cent. of the total area of the Presidency as against 10,658 square miles in the year 1934-35.

3. *Communications and buildings.*—The need for economy hampered the development of communications and for want of funds no new roads and bridges were constructed during the year. The total expenditure incurred in the construction of new buildings was Rs. 30,700 against Rs. 12,690 in the previous year. The bulk of the expenditure was, however, spent on the construction of houses for subordinates. The increase was due to the fact that in previous years on account of financial stringency all such work was held up.

4. *Working plans.*—The revised working plan for the Kalimpong Division which was brought into force during the year was under print. The prescriptions of the sanctioned working plans were followed as far as circumstances permitted, and all deviations were duly authorised. In the Chittagong Division the prescriptions of the working plan which was under revision were followed.

5. *Damage from natural causes.*—Climbers did their usual damage in high forests as well as in plantations. Regular creeper cutting operations could not be done for want of funds though steps were taken to remove and burn the worst varieties of climbers. The Assam *lota* was eradicated wherever it appeared on forest land. To prevent insect-pests on *champ* the suggestions of the Forest Entomologist for spraying experiments with a solution of tobacco and soap are being given an exhaustive trial.

Several landslips occurred during the year. The most serious landslide in the Soom Forest of the Darjeeling Division was, however, arrested by a part of it being planted up.

The erosions of the Tista and Torsa rivers have become annual occurrences, that of the Torsa being more serious. The matter is engaging the attention of Government.

6. *Utilisation.*—The value of the total outturn of the produce extracted departmentally was Rs. 3.95 lakhs against Rs. 3.60 lakhs in

1934-35. The demand for sleepers and match wood was poor throughout the year. Match woods—Simul and Pitali—were supplied to the match factories in Calcutta at a small and doubtful profit. The Forest Utilisation Officer continued to do useful work in finding markets for purchasers' timber as well as for timber extracted departmentally.

A special feature of the report under review is the excellent results obtained by the exclusive use of the Bengal timber in the Government House, Darjeeling, which had to be reconstructed during the year due to the damage done to it by the earthquake of 1934. Some of the important woods used in the interior of the new building are *Panisaj* (*Terminalia myriocarpa*), *Pakkasaj* (*Terminalia tomentosa*) and *Sissoo* (*Dalbergia sissoo*). *Panisaj*, which is light in colour and resembles light oak in appearance, gives a cheerful effect in the staircase hall, landing and all the doors of the building; *Sissoo*, which is an excellent timber and very handsome, gives a warm tone in the breakfast and dining halls; *Pakkasaj*, though a little hard to work, gives a delightfully rich appearance in His Excellency's study. It is gratifying to note that all the timber used in the building has given most excellent results in spite of the very trying climatic conditions of Darjeeling.

7. *Revenue and expenditure.*—The revenue, expenditure and surplus are compared below with those of the previous year:—

	Revenue.	Expenditure.	Surplus.
	Rs.	Rs.	Rs.
1934-35	.. 17,82,542	14,90,019	2,92,523
1935-36	.. 20,10,406	15,53,316	4,57,090

8. *General.*—During the year, 29 persons were killed by tigers against 45 in the previous year. Six men against five in 1934-35 were killed by wild elephants. No persons were killed by leopards though five men were reported to have been mauled by them during the year. Rs. 200 was paid as rewards for tigers killed outside the reserved forests of Sunderbans.

The shooting and fishing associations in the Northern Bengal continued to take keen interest in the preservation of game. The collection of tolls for fishing in the rivers within the reserved forests in the district of Khulna amounted to Rs. 15,618 against Rs. 12,839 in the previous year.

The thanks of the Governor in Council are due to Messrs. Shebbeare and Meiklejohn for their successful administration of the forest circles. His Excellency in Council also notices with pleasure the record of good work done by other officers of the department mentioned in the report.

Order—Ordered that a copy of the above resolution be published in the *Calcutta Gazette*.

Ordered also that a copy of the above resolution be forwarded to the Conservator of Forests, Bengal.

By order of the Governor in Council,

H. S. E. STEVENS,

Secy. to the Govt. of Bengal.

Official Papers.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 6th February 1937.

Third and Final Report on the Winter Rice Crops of Bengal, 1936-37.

(Note.—On an average of the five years ending 1934-35, the area under winter rice in Bengal has represented some 17·8 per cent. of the total area under rice in India.)

Character of the season.—The period covered by this forecast is that of the harvest during which weather conditions were favourable except in the districts of Nadia, Jessore, Rajshahi and Faridpur, where the low land crop was affected by flood.

Acres.—According to District Officers' estimates, the total area under winter rice is

15,803,600 acres as compared with 14,836,900 acres of last year.

Outturn.—From the summary of the district returns appended, it will be seen that seven districts report a bumper crop, eleven districts a normal crop, five districts a crop varying from 92 to 98 per cent. and the remaining four districts only below 92 per cent. of the normal. According to the above estimates the provincial outturn works out to 106 per cent. of the normal as against 68 per cent. of last year.

Accepting 106 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 13½ maunds of clean rice per acre, is estimated at 8,307,500 tons this year as against 5,003,400 tons in last year.

M. CARBERRY,

Director of Agriculture, Bengal (offg.)
